

# Up All Night

Slaughter

Up all night, sleep all day  
Up all night, sleep all day

When evening comes I am alive  
I love to prowl around in the streets  
It's the moonlight that controls my mind  
Now I've got the power to speak

Awake from dusk to dawn  
Watching the city lights  
Stars are shining down  
They'll be shining down  
On you and I  
And when the morning comes  
And I'll hold you  
'Til the morning light

Everybody sing it now

Up all night, sleep all day  
Up all night, sleep all day  
That's right

Driving down the boulevard  
All alone  
The neon signs  
Are calling your name  
Find me in the corner  
Having the time of my life  
You'd think you'd wanna do the same

Awake from dusk to dawn  
Watching the city lights  
Stars are shining down  
They'll be shining down  
On you and I  
And when the morning comes  
And I'll hold you  
'Til the morning light

Everybody sing it now

Up all night, sleep all day  
Up all night, sleep all day  
That's right  
Up all night, sleep all day  
Come on, Come on  
Up all night  
Ah, maybe we can just stay up  
Twenty four hours a day

Awake from dusk to dawn  
Watching the city lights  
Stars are shining down  
They'll be shining down  
On you and I  
And when the morning comes

And I'll hold you  
'Til the morning light  
Everybody sing it now

Up all night, sleep all day  
Up all night, sleep all day  
Come on, Come on  
Up all night, sleep all day  
That's right  
Up all night, sleep all day  
Up all night.
