

# You're My Everything

Slaughter

Travelin' down life's empty highway  
I kept lookin' for a miracle there you were lookin' at me  
Used to be, used to be, used to be so discouraged  
And then suddenly I realized you are my destiny

But now I know whatever happens come what may  
Now the sun is shining brighter  
It's gettin' better everyday

Every night when the sun goes down  
All I want is to be around you  
With every single beat of my heart  
You're my everything  
I cannot believe all the empty hearted  
I see the people in their everyday world  
With you here by my side  
Even though it gets real hard  
We'll find a way to reach the stars  
In life and in love forever we'll always be

You're my everything and everything is you  
No one can deny this love deep inside  
Forever and always I'll be true  
You're my everything
