

Ashes. Dust. Smoke. Love. Stars. The One.

Slaves

I watched her eyes burn bright, but I could see the despise. We
sank beneath her with every track. She screams 'til she's blue
in the face, there's no room for her under the stars we feud f
or.

We're still not getting past it, hoping these issues dissolve,
but they take another form, these problems just evolve

The frown behind her smile, the pieces we can't force to fit. I
can't fake another love when the outcome is so quick. Ashes to
ashes, dust to dust. Ashes to ashes, dust to dust. Watch the s
moke fill our lungs, watch the smoke.

We're still not getting past it, hoping these issues dissolve,
but they take another form, these problems just evolve.

I watched her eyes burn bright, but I could see the despise. We
sank beneath her with every track. She screams 'til she's blue
in the face, there's no room for her under the stars we feud f
or.

Watch her turn to dust. Watch her turn to dust. You're covered
in the blood after you stabbed my fucking heart out.

We're still not getting past it, hoping these issues dissolve,
but they take another form, these problems just evolve. (2x)
