## Slayer

Start with vanity  
Arrogance and greed  
Panic is my obsession  
No one can escape

The thrill is much too great  
Despair is my creation  
Everything obscene  
Emanates from me

Homicide is on the rise  
It all begins now  
Take your final bow  
The camera never lies

Action, torture, misery  
Endless suffering  
Torment, agony

Captured for eternity  
Action  
You're the main attraction

Torture, misery  
Endless suffering  
Pleasing to the eye  
To this you can't deny

No one else around  
Razor wire bound  
Insanity is so near  
Heart begins to seize

Watch you atrophy  
Reality is now clear  
Take a look inside  
Many more have died

The internet's an open door  
Everyone can see  
Dying brutally  
The audience begs for more

Action, torture, misery  
Endless suffering  
Torment, agony

Captured for eternity  
Action  
You're the main attraction

Torture, misery  
Endless suffering  
Pleasing to the eye  
To this you can't deny

Murder is my future

Killing is my future  
Murder is my future  
Killing is my future

Torture, misery  
Endless suffering  
Pleasing to the eye  
To this you can't deny

Murder is my future  
Killing is my future  
Murder is my future  
Killing is my future

Murder is my future  
Killing is my future  
Murder is my future  
Killing is my future

Murder is my future
