

## Supremist

Slayer

Crushing all our worthless skulls  
I will find control  
You're paid by fucking ecstasy  
so putrid is my world of tyranny

Excentuate your desperation, Flesh will fold  
I'll rip and tear  
I hate the fact that we breath  
the same AIR

Helpless as I dominate  
I will celebrate  
Until you've all been cruxified  
I can not rest till everyone has died

I can't stand the victim in you  
Infecting everything that I do  
I will eraticate, obliterate, depopulate  
Define atrocity of suffering  
Contaition of the weak  
Supremacy

Pissing on you face  
Incenerate God's lore  
Perpetual is my wrath  
I will eat your soul

(solo)

Must men take control of the WEAK

Must men take control of the weak  
Must contin the minds of the free  
Must men take control of the weak  
Must contain the minds of the free  
Must men take control of the weak
