

Write in passing when there's time
Hide the paper, hide my mind
Keep you quiet, keep you blind
Don't rock the boat, don't read the sign

You're my co-pilot
Not my God pilot

You take everything
You take what I want
You take everything
You take what I want

Want from you is so defined
Your suit and tie, your shiny smile
Your calm belief, your piece of mind
I'll trade you for it, then run, then fly

You're my co-pilot
Not my God pilot

You take everything
You take what I want
You take everything
You take what I want

You take what I want
You take what I want
You take what I want
