

# Apocalypse

Sleeperstar

This is the way it is can you change it?  
Extreme belief will make you a stranger  
To all the men and kings and their styles  
You make the world and set it on fire

Tear down the walls don't need no protection  
Release the bombs of natural selection  
Before the voices drown you to sleep  
Best you remember

Who you gonna be when it crashes?  
Find yourself covered in ashes  
Is this the way it begins?  
Is this the apocalypse?  
Who you gonna be if it's over?  
Sun goes dark and you don't know if  
This is the way it begins  
This is the apocalypse

Where do you turn when there's no one to trust?  
We are the facts that stack up against us  
We're the boys who bury their fathers  
Same for the sons that gave away daughters

Come to the end of all you have seen  
Have all the answers but what do they mean  
Oh when the end is near  
What do they mean? Yeah

Who you gonna be when it crashes?  
Find yourself covered in ashes  
Is this the way it begins?  
Is this the apocalypse?  
Who you gonna be if it's over?  
Sun goes dark and you don't know if  
This is the way it begins  
This is the apocalypse

It starts with a heartbeat  
The sparks of an army  
It starts with a heartbeat  
The sparks of an army  
And it starts with a heartbeat  
The sparks of an army  
An army  
An army  
Yeaahhhhhh

This is the way it is can you change it?

Who you gonna be when it crashes?  
Find yourself covered in ashes  
Is this the way it begins?  
Is this the apocalypse?  
Who you gonna be if it's over?  
Sun goes dark and you don't know if  
This is the way it begins

This is the apocalypse

Is this the way it begins?

This is the apocalypse

This is the way it is can you change it

Extreme belief will make you a stranger

This is the way it begins

This is the apocalypse!
