

## Déjà Vu

### Sleeping with Sirens

You know I love it when your hair's pulled back  
Ugh, it drives me crazy  
You know I love it when you look like that  
Tell me what you want to do.

You know I love to get the sheets messed up  
Put your hands on my chest because it might get rough  
Don't stop me baby 'til you've had enough  
Come on, come on, come on!

With my hands all over you  
There's nothing I can't do  
Feels like were having déjà, déjà vu  
Got my hands all over you  
There's nothing I can't do  
It's like we're having déjà, déjà vu!

Won't you tell me baby, what's your type?  
Kiss you soft and slow, turn off the lights  
I know sometimes you like to lose control  
You love to rock and roll, yeah.

You know I love it when you talk like that  
Just when I think that we're through you make me come right back  
You're like a drug and I can't relax  
I need more, more, more... Yeah!

With my hands all over you  
There's nothing I can't do  
Feels like were having déjà, déjà vu  
Got my hands all over you  
There's nothing I can't do  
It's like we're having déjà, déjà vu!

Yeah, you make me feel so good!  
Yeah, you make me feel so good!

Baby give me more, won't you give me more?  
Won't you give me more!  
Oh, you know I need more, more, more!

With my hands all over you  
There's nothing I can't do  
Feels like were having déjà, déjà vu  
Got my hands all over you  
There's nothing I can't do  
It's like we're having déjà, déjà vu!

Baby, give me more, wont you give me more?  
Won't you give me more!  
Oh, you know I need more, more more!
