

Ain't Got A Lot Of Money

Slightly Stoopid

I aint got a lot of money
All i got is time and a reason to rhyme
Don't need a lot of money
All i need is you

My baby girl was a virgin till i came inside
With the brown eye passionate and kisses right
When i got her arms wrapped around my side
Then you know it's a feeling that you talkin about
And if you don't need me then i don't need you on my mind
And if you don't want me then i don't want you on my dime

I said im leavin baby
Never look back never look back
I said im leavin honey
Never look back again

I aint got a lot of money
All i got is time and a reason to rhyme
Don't need a lot of money
All i need is you

And if you don't need me then i don't need you on my mind
And if you don't want me then i don't want you on my dime

I said im leavin baby
Never look back never look back
I said im leavin honey
Never look back again

I aint got a lot of money
All i got is time and a reason to rhyme
Don't need a lot of money
All i need is you
