

## Castles Of Sand

Slightly Stoopid

Strike down the ones who  
Come criticize you  
Strike down the ones who  
Come jeopardize you  
Come jeopardize you  
And like a new grown seed  
The man come and chop you down  
He come chop you down  
And when your reaching for that sunshine  
He come chop you down  
He come chop you down  
The man come he say to me  
In the morning time you'll see me by the ocean floor  
Building castles  
Building castles made of sand  
Said if your good to me you know that ill be good to you  
You never really understood the meaning of the truth
