

Comma Comma

Slightly Stoopid

When i was just a kid
My mama used to sing a song
But know that i've grown
To be a man
You know that it
Still it lingers deep down in my soul
I said it lingers deep down in my soul
Comma comma
Come back here to me
My young lady
Comma comma say
Come back here to me
My young lady
Say just what i thought
But everything was runnin' oh so smooth
You know that she left me
While i was in the mood
But you know that i'm calling to you
Because my world is relying for you to
Comma comma say
Come back here to me
My young lady
Comma comma say
Come back here to me
My young lady
But just what i thought
But everything was runnin' oh so smooth
You know that my baby she left me
But while i was in the mood
But you know that i'm calling to you
Because my world is relying for you to
Comma comma say
Come back here to me
My young lady
Comma comma say
Come back here to me
My young lady
