

longest liver will see the most
the longest liver will see the most
soon them all comin' in the right time
soon them all come a natty dread
soon come
soon come
i say now soon come
an' i say why, she said cause
just cause i'm leavin' you my love
i'm headin' on that northbound train
neva wan' see you again
i got permission no restriction
gonna feed this here addiction
headin' on that lonely road
i said why and she said so
headin' on that northbound train
neva gon' see you again
and when she said that... i just had to say...
i said now come back darlin'
give me another try
i'm really satisfied
longest liver will see the most
the longest liver will see the most
soon them all comin' in the right time
soon them all come a natty dread
soon come
soon come
i say now soon come
i say why, she said cause
just cause i'm leavin' you my love
i'm headin' on that northbound train
neva wan' see you again
i got permission no restriction
gonna feed this here addiction
headin' on that lonely road
i saw why and she said so
headin' on that northbound train
never wan' see you again
come back darlin'
give me another try
i'm really satisfied
longest liver will see the most
the longest liver will see the most
