

Sweet Honey

Slightly Stoopid

Put up your hands girl but not so, so pushy
If you wanna be comn' and makn' sweet love to me
And if your the type of girl that do anything me please
Maybe then I realize you ain't got what I need
To keep my soul alright
It keeps me up high above
Yes me got the reason to come question your love
It keeps my soul alright
It keeps me up high above
Want me girlie to come give me some sweet lovn'
And in the morning time she makes me feel alright
Then me gotta be waitn' till the day turns to night
Cause in the evening time she makes me feel alright
Girl you got me wishin' this would happen every night

Miles and sister
Said if you want to get with me
Girl this is what you'll find
But a man who's got the type of moves to make you lose your mind
You tell me that your love is true on each and every day
You tell me that you've got that type of lovn' here to stay
Sweet honey

You see me laughin'
Cause it's kinda funny to me
The way she say she never give her lovn' for free
She say she got a man why she lookn' at me
Yes she want a lover with the sensativity ya

But won't you tell me that your loves from the heart
Yes the type of lovn' that can tear a man apart
Girl you got to realize before it ever starts
Yes I am the man who won't come breakn' your heart

Said if you want to get with me
Girl this is what you'll find
But a man who's got the type of moves to make you lose your mind
You tell me that your love is true on each and every day
You tell me that you've got that type of lovn' here to stay
Sweet honey
She gonna steal my money
Sweet honey
She gonna steal my lovn'
Yes you try to tell me that you're sent from above
Girl you give me reason to come question your love
Sweet honey
She gonna steal my money
Sweet honey
She gonna steal my lovn'
Yes you try to tell me that your sent from above
Girl you give me reason to come question your love
