Don't need no reason to give, don't need no reason or why don't really care what you think Just live your life in the right and if you call it a game Look around and you'll see A lot of people are hungry and there looking to eat Don't think about what you got or what you cannot afford before you roll to the store just change the labels before you leave a check at the stand knowing your screwing the man because he'd fucking with you and now you've had it

Is it something in the way you move, Got me thinking that my minds abusing Is it something in the way you say, that we thinking this is living today.

Cause all the things that you be thinking out loud, don't necessarily matter if your running your mouth because you never really know who you be talking about he could be crazy enough to pull a gun and be out

Don't think about the things that you know must be wrong, and if you're moving along you must be feeling as strong and if you think about the things that you know must be right while your wowing and bowin to get up while you get up in it

Is it something in the way you move, Got me thinking that my minds abusing Is it something in the way you say, that we thinking this is living today.
