Big boss of that damn nawf, grab the mic straight run his mouth
Candy blue what you see me floss, when I pull the lac up out the house

Lookin' good while I hold the wood, on the slab shit's understood
Hit the stash chunk up the hood, boys gotta see me stunt for good

New car new ice, it ain't shit I can pay that price,
Niggas ain't living like the boss live, that's what that is and I say that twice

I tip the 4's and flip the roads, before that album got shipped to stores
Boys betta keep they lips closed, before they punk-ass get exposed

I done showed the world how the boss hold, Slab or foreign I floss those
Drank and dro got me floss mode, doin' 100 on the toll road

Pimp and Bun runnin' right behind, pieced up with the grill shine
10 years still putting it down, representin' for that H-Town

Michael watts got the beats slow, slim thug keep the streets throwed
Brains straight bout to be blowed, cause Rico got them sweets rolled

Now ask them cause the streets know, the big boss man got it locked
H-Town man I'mma shout that out, till I'm up in Heaven wit Pimp and Pac.

And she pay her daddy and that's what it do

It's Bun B the man and not the myth, ridin on them 4's trunk got the fifth

From P-A-T the land of the Trill, so when come out I'mma come out hard

You know the name and the resume, my g-code files is documented
Certified Rap-a-Lot for life, down with the mob represented
