

Rainbows Are Back In Style

Slim Whitman

Rainbows are getting back in style
There's sunshine everywhere and I'm a learning how to smile
The only time it rains is to cool things for a while
But since I met you, I can't forget you and rainbows
are back in style

There's not a thing in this world I'd rather do to than
sit, stare at your face
You're so pretty that you made the world a whole lot
happier place
Well, lifes worth livin' and the love you're givin'
Has made me feel this way and rainbows have chased the
clouds away

Rainbows are getting back in style
There's sunshine everywhere and I'm a learning how to smile
The only time it rains is to cool things for a while
But since I met you, I can't forget you and rainbows
are back in style

Well your name is like music and I can't help singin'
it over and over again
This happy feelin' has got me thinkin' its heaven I'm
livin' in
Well, the love we share puts magic in the air and every
dream comes true
And rainbows have turned my skies to blue

Rainbows are getting back in style
There's sunshine everywhere and I'm a learning how to smile
The only time it rains is to cool things for a while
But since I met you, I can't forget you and rainbows
are back in style
