

N your arms I'm fine
And you know I cross the line
In a way, a way, a way I never known

I'll get on my knees
Do anything you please
Today, today, today since I'm alone

Come on girl,
Don't make me wait!

Woohoo!

When the small hours show
And faces lose their glow
In a way, a way, a way I've always known

It's a time of need
A catcher and a thief
Today, today, today since I'm alone

Come on girl,
Don't make me wait...
So long!

Woohoo!
