

Long Long Way

Slim Wray

Been a long, long road through wilderness
To find a well to wet my lips now
You say that short cuts
Make for long delays

Been a long, long road through wilderness
To find a place to hang my head now
My mind was twisted up, li'l girl
Find a way to pull those reigns

Pull those reigns I know so well

Been a long road through wilderness
To find a well to wet my lips now
Situation gett'n out'a hand
Got the whores out of my head

They say gold is here and there
So you go and chase your tail 'round
But those kind of ways won't
Keep you warm the night through

Pull those reigns I know so well

Been a long, long way
