

# We Don't Need The Army

Slime

Millions of people dying in war, they just don't know why  
Soldiers fighting for god and country, war does make them high  
Nobody can do anything, 'cause nobody understands  
Troops are marching for a crazy leader, for the rules of their  
land  
If you're not a fool, a victim of insanity  
I'll tell you something, just listen to me  
We don't need the army - no, no, no  
We don't want a war - no, no, no  
Destroy your government, fight their fucking war!!!  
Government saying we need defense, but it's nothing less than w  
ar  
Nowhere's peace in this dirty world, they're fighting more and  
more  
War for money, war for fame, never seen a bigger crime  
Fighting for a crazy leader, but I don't wanna die  
If you're not a fool, a victim of insanity  
I'll tell you something, just listen to me  
We don't need the army - no, no, no  
We don't want a war - no, no, no  
Destroy your government, fight their fucking war!!!
