

## 500 Up

Sloan

She comes running down like water  
To splash around with the ones that taught her  
She's just like that farmer's daughter  
Everybody laughs at the joke

And we're laughing  
She don't know what it means  
She just knows that it's not what it seems

Everybody knows that she's going nowhere  
Everybody always tells her how much they care  
But all they really care about is growin' their hair  
And gettin' it cut

And we're laughing  
She don't know what it means  
She just knows that it's not what it seems

She's running down much faster  
Home base is around the corner  
All she can hear is laughter  
And that's all that's in store for her

Sliding downwards, you're the batter  
That's what they say, 500 up on the ladder

She comes running down like water  
She comes running down

Everybody knows that she's going nowhere  
Everybody always tells her how much they care  
But all they really care about is cuttin' their hair  
And lettin' it grow

And we're laughing  
She don't know what it means  
She just knows that it's not what it seems

She's running down much faster  
Home base is around the corner  
All she can hear is laughter  
And that's all that's in store for her
