

All Used Up

Sloan

Blind leading blind
Tryin' to keep yourself alive
Wrong doing right
Keep flashing that electric smile
Saying something nice
Like everything will be all right
Running out of time
Trying to keep you occupied

Cause it's all used up
There's nothing left to trust
Yeah, it's all used up
You went and used it up

Rolling all fives
As everything gets cut to size
Holdin' all nines
Making sure that I've got mine
Right before your eyes
Something you have yet to find
Swallowing your pride
Cause you've got nothing left to hide, yeah

Cause it's all used up
There's nothing left to trust
Yeah, it's all used up
You went and used it up

Cause it's all used up
There's nothing left to trust
Yeah, it's all used up

Cause it's all used up
There's nothing left to trust
Yeah, it's all used up
You went and used it up

Cause it's all used up
You went and used it up
Yeah, it's all used up
You went and used it up

All used up
All used up
All used up
You went and used it up
