

It's In Your Eyes

Sloan

You're so crazy, crazy for me
Because I've got something so elusive
And I know just why, yeah I know just why
To the naked eye, to the naked eye

Your elevator
Comes down to human nature
Get your elevator off my ground floor
And I guess my odd behavior
And I can get behind anything you tell me to

And I believe about anything you say is true
You're too good for this, you don't deserve it

You're so crazy, crazy for me
It's not hard to find it's in your eyes all the time, all the time
And I don't know why, yeah I don't know why
