

Last Time In Love

Sloan

This is my last time
Last time in love
And I got suddenly scared
That I'll never get to fall in love again

All my life, I opened up myself to anyone
I tried for a while and always let 'em down
Moving on was something I mastered
Is it fair to say I go so good at that went to town?

Then I met you (ooohhh)
Falling for you wasn't hard to do
But deja vu (oohh)
Always falling but this feeling's new

Is this my last time?
Last time in love
Oh, it's time I asked myself why
I'm not learning my lesson

If it's my last time
Last time in love
Then it's bittersweet because I
Know I'll never get to fall in love again

Hanging in has be hard up 'til now because I
Tried to be someone else but it wasn't doin' any good
Everyone I ever went out with thought I had to change
Anyone who knows me knows I never could

Now I'm with you (ooohhh)
Sitcking with it can be hard to do
But I can say (aaayyy)
I wouldn't have it any other way

Now it's my last time
Last time in love
Oh it's not that I never cared
For the others way back when

But it's my last time
Last time in love
Oh, and I got suddenly scared
That I'll never get to fall in love again

Yes it's my last time
Last time in love
I wonder who'd have believed
Of the ones who knew me when

That it's my last time
Last time in love
Oh, but part of me is relieved
That I'll never have to fall in love again
