Last Time In Love

This is my last time Last time in love And I got suddenly scared That I'll never get to fall in love again

All my life, I opened up myself to anyone I tried for a while and always let 'em down Moving on was something I mastered Is it fair to say I go so good at that went to town?

Then I met you (ooohhh) Falling for you wasn't hard to do But deja vu (oohh) Always falling but this feeling's new

Is this my last time? Last time in love Oh, it's time I asked myself why I'm not learning my lesson

If it's my last time Last time in love Then it's bittersweet because I Know I'll never get to fall in love again

Hanging in has be hard up 'til now because I Tried to be someone else but it wasn't doin' any good Everyone I ever went out with thought I had to change Anoyone who knows me knows I never could

Now I'm with you (oohhh) Sitcking with it can be hard to do But I can say (aaayyy) I wouldn't have it any other way

Now it's my last time Last time in love Oh it's not that I never cared For the others way back when

But it's my last time Last time in love Oh, and I got suddenly scared That I'll never get to fall in love again

Yes it's my last time Last time in love I wonder who'd have believed Of the ones who knew me when

That it's my last time Last time in love Oh, but part of me is relieved That I'll never have to fall in love again
