

Catch The Breeze

Slowdive

Feels like all the days are gone
Just catch the breeze
You know it had to fall
Rain, washes, ways down
And I, I want the world to pass
And I, I watch the wind to fly
You can believe in everything
You can believe it all
Hey, are you feeling something new
Just watch the rain, it helps in all you do
The breeze, it blows, it blows everything
And I, I want the world to pass
And I, I want the sun to shine
You can believe in everything
You can believe it all
