

## No Longer Making Time

Slowdive

You come anyway  
You say "I'm cleaning like [?]"  
You come when you're bored  
You keep saying "Liar, you like a liar, liar"  
Who cares anyway  
Oh Lord, I remember those days  
And all those nights  
When you wanted so much more

Kathy, don't wait too long  
We're no longer making time  
Forever we be together, we breathe  
No longer for too long

You come anyway  
Come on down through the highway  
It comes and goes  
You come around but don't run away  
Just lovers of life  
Come around and there's no surprise  
Just hold your arms  
Hold them up until the feeling grows

Kathy, don't wait too long  
We're no longer making time  
Forever we be together, we breathe  
No longer for too long  
Kathy, don't wait too long  
We're no longer making time  
Forever we be together, we breathe  
No longer for too long

Who cares anyway  
Oh Lord, I remember those days  
And all those nights  
Hold them up until the feeling grows
