## Sing

Slowdive

Sing where the other boys can watch you dance Here come my man Sing where the other boys can watch you dance Here in my mind Watch you fall away I know Sing where the other boys can watch you dance See you cover death I know We're fine, you are blind Caught it from behind Feel you fall away I know he's here to stay Sing where the other boys can watch you dance Sing where the other boys can watch you dance Sing where the other boys can watch you dance What a world I Sing where the other boys can watch you dance I thought I Everything I say Sing where the other boys can watch you dance And I know that he's gone away
