

Blow Up

Slut

Let's wait until
The morning light
Then give me pills
For one more try

'Cause we'll be over
We'll be over

Let's place the bomb
And stop to breathe
Let's wait until
The city sleeps

We'll be over
When it's over
Blow up

I'll light the fuse
At ten to eight
Then count to three
Then run away

'Cause we'll be over
When it's over
Blow up

Please steal a car
And grab your coat
Then give me five
And hit the road
We'll be over

We'll be over
When it's over
Blow up

I'll kill the world
For you today
We'll place a bomb
Then drive away
