

Easy To Love

Slut

Fill it and thrill it
Then turn back to kill it
Just gimme the laughter again
You were a mistress
Just making me distress
And I'm gonna miss this
I wait and I wait and I wait

You're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again and again
Easy to love
Always been too late
You're so easy to love
You can make me wait and wait and wait

We never had this
We never regret this
And I can never forget this again
But if I might lose you
I've been lucky to choose you
And I could never abuse you
Again and again and again

You're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again and again
Easy to love
Always been too late
You're so easy to love
You can make me wait and wait and wait

You're so easy to love
So easy to love
You're so easy to love
You're so easy to love

You're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again and again
Easy to love
Always been too late
You're so easy to love
You can make me wait and wait and wait
