

Lost Emotion

Slut

We gotta say we're in love
Everyday in a letter
That we give it all up
And give us all away
It's gotta make us feel sad
But the sadder the better
We gotta find us a place in timerace to stay

We're under heavy attack
With a lot of affection
We gotta tell all the world
We have a big time
We gotta keep it all back
For a better protection
Haven't you seen, haven't you heard
We're straight-lined

We gotta do it for love
We gotta do this for love
We gotta do it for love
Live it all up
Lost emotion

We gotta think we're on fire
In a big celebration
Baby you are the one
And only
We gotta get prepared
For the next separation
Gotta sit us at home with no phone
Lonely

We gotta do it for love
We gotta do this for love
We gotta do it for love
Live it all up
Lost emotion

We gotta do this for love
We gotta do it for love
We gotta do this for love
Lost emotion
Lost emotion
Lost emotion
