

Odds And Ends

Slut

They got things to make us happy
and they got things to make us sad
They do offer opportunities which may
bring the good things to the bad and lonely awful only

We know who we must believe in
and we know ways to compromise
There's nothing that we don't know how it feels like
There's nothing that we haven't heard of seen and had
and been at

All the things that we have said
They won't matter til we're dead
Even if we meant to make it better
I guess it's time to understand that this wasn't on the
plan
Even if we meant to make it better

I know ways to make you happy
you've got your ways to make me sad
They built machines to bring the good things
Bring all the good things to the bad and lonely awful
only

All the things that we have said
They won't matter til we're dead
Even if we meant to make it better
I guess it's time to understand that this wasn't on the
plan
Even if we meant to make it better

And all the things that we have done
They won't matter til we're gone
Even if we meant to make it better
I guess it's time to understand that this wasn't on the
plan
Even if we meant to make it better

I know ways to make you happy
you've got your ways to make me sad
They built machines to bring the good things
Bring all the good things to the bad

We've got lost in the battle with rock'n' roll
We've got lost in the battle with rock'n' roll
We've got lost in the battle with rock'n' roll
