

Sensation

Slut

Once I saw
Different star
From now on
Kindness gone
I'll curse you all
About to fall

Girl like you
Things we do
Know she would
Understood
I'll leave to try
And say goodbye
Go

Sensation
Now I curse you all
Sensation
I'm about to fall
Sensation
You, me for a while

Start to be
Lunacy
who we are
you, me, star
I'm coming down
You'll see me drown
Go

Sensation
Now I curse you all
Sensation
I'm about to fall
Sensation
You, me for a while

Now I curse you all
I'm about to fall
