

# I Don't Know (Satisfaction)

Sly & The Family Stone

All we need is little action  
If it's only but a fraction  
All we need is little action  
If it's only but a fraction

People to see, even me  
Man with a little got more of a plea  
He's cryin'  
I don't know

Time at last, laws to pass  
Can't be a few got to be a mass  
A-tryin'  
Got to go

Bigger crowd, feelin' proud  
And all of a sudden I'm singin' loud  
Applyin'  
Oh, what I know

Feel the game, not a pain  
Ain't nobody in a strain  
Defyin'  
Oh, 'cause they know

All we need is little action  
If it's only but a fraction  
All we need is little action  
If it's only but a fraction

Now I know what to do  
No more sellin' me to you  
Buyin'  
That's a no-no-no

Mother wit is what you get  
Tryin' to have the most of it  
Am I livin'?  
I don't know

Ask yourself how you feel  
Are you really feelin' real?  
What you say?  
I don't know

All we need is little action  
If it's only but a fraction  
All we need is little action  
If it's only but a fraction

I see abuse, what's the use?  
Time must let my people loose  
Cos we tryin'  
I don't know

Much to learn, a place to turn  
When there's nothin' else to burn

Replyin'  
Oh, I think I know

Nothin' in the way, but another day  
And we're gonna push it on out the way  
'Cause we're doin'  
Oh, what we know

All we need is little action (What I say)  
If it's only but a fraction (I don't know)  
All we need is little action (What you say)  
If it's only but a fraction (You don't know)

All we need is little action (What I say)  
If it's only but a fraction (Oh, we don't know)  
All we need is little action (What I say, we don't  
know)  
If it's only but a fraction
