

Time

Sly & The Family Stone

Time
Needs another minute, at least
Take your time
But you've got a limit

Ah, yeah
That girl looks forward to another meetin'
Just like everyday people I know
Look forward to another simple greetin'

A bear in the woods looks forward to hibernatin'
Just any ol' player you know
All he needs is a ratin'

Time
Is education
Even when they tell you
It's sophistication

You know, you know that time, time
Needs to be a little longer
Oh time
The universe needs to be a little stronger

Time they say is the answer
But I don't believe them
Time
