

## Up The Wooden Hills To Bedfordshire

Small Faces

When you're slipping into sleep, that's the time to unwind  
Sinking down into the deep, that's the time of no time  
When you're slipping into sleep  
All the sounds around you seem to have a new meaning  
Leave your body behind you with a different feeling  
When you're slipping into sleep

The day is night, the night is day  
So please out the light as I slip away  
Up the wooden hills to Bedfordshire  
Up the wooden hills to Bedfordshire

When you're slipping into sleep, there's a world you will find  
That's all yours and you can keep, that's the only thing to keep  
p  
When you're slipping into sleep  
All the sounds around you seem to have a new meaning  
Leave your body behind you with a different feeling  
When you're slipping into sleep
