

Heroes (As We Are)

Smash Into Pieces

I don't know what I'm fighting for,
It's a life I can't defend,
Let us pray that we'll find a cure,
Before darkness will descend,

Shadows are closing in,
Getting ready to win,
Heroes, save us,
We have lost what we are,
This has gone way too far,
Heroes, save us,
As we are,

From a whisper into a storm,
What we started lost control,
Our new world made us insecure,
gave us purpose for a war,
No one's ever seen before,

Shadows are closing in,
Getting ready to win,
Heroes, save us,
We have lost what we are,
This has gone way too far,
Heroes, save us,
As we are,

I wanna see who you are,
What you are,
Cause I know,
Heroes show who they are,
Who are you now,

Forget your desire,
Become our Messiah,
Show us a way out,
We're just aiming higher,
We're playing with fire,
Will you wakes us up?,

We think that we know how to wash away our sin,
Just beat everything,
A hero will show the real enemy within,

Shadows are closing in,
Getting ready to win,
Heroes, save us,
We have lost what we are,
This has gone way too far,
Heroes, save us,
As we are,
