

I lose my solitude
I see myself in you I don't like what I see
If my voice like you in sounds
What the hell is going down
I'm so pissed off at myself
In the mirror, it's you that I see
Staring back at me
I don't like what I see
I try to look the other way, and pretend that I'm okay
But I know it's kinda true
Look at myself, your just like me
I've always told myself at you

I didn't want to be I lose my solitude
I see myself in you
I don't like what I see I change but it's a work
I'm going back down to what is worse
I can't believe I yelled at you
You yelled at me can't you see
We're going no where fast, like a plane will crash
Like a plane would crash, like a plane will crash

You always said that you were proud
Let me lay and rest your doubts
The critizem I can't take
But I can't deal with all your hate
I can't deal with all your hate (2x)
Never seem to ever let up
All I needed was a friend
Someone to talk to, someone to turn my thoughts around
Pick me up when I fall down
Lead me in the right direction
Aid me in my ressurection
You kicked me 'round I try to tell you I've had enough
Feel my thoughts and feel my soul
Tell me which way that I should go
Which way that I should go, I should go

I lose my solitude
I see myself in you I don't like what I see
I lose my solitude
I see myself in you I don't like what I see
