

Sippin' tea
Let the rivers pass me by
These dusty tears
Need no place to cry

I need no reason for the first time in my life
I just need to be on my way

I don't want for anything that I don't have
All I want is waiting for me there
For me there
With my czarina queen of all that I believe
Still born seasons cradle our affairs

I light a candle
My lover to protect
In sack cloth and ashes
My lover will descend

I need no reason for the first time in my life
I just need to be on my way

I don't want for anything that I don't have
All I want is waiting for me there
I don't want for anything that I don't have
All I want is waiting for me there
For me there

Hide behind your walls
I waste a day
If I want
All this and more are under me

I need no reason for the first time in my life
I just need to be on my way

I don't want for anything that I don't have
All I want is waiting for me there
I don't want for anything that I don't have
All I want is waiting for me there
For me there
For me there
