

# Death from Above

The Smashing Pumpkins

A little hunger  
A little wonder of  
Death from above  
Death from above

Oh Mary, Mary  
What are we asking of?  
Death from above

Yes love, I'm sinking  
I wonder just how far  
What was I thinking  
Of when I fell apart?

I see the moon move  
Cover me under the spell  
I see the few souls  
Cover me hungry and cold

I know the first thing  
Running up under your path  
I know this can't last  
Death from above

Shoot here comes  
Death from above

A little reject  
A simple conjure of  
Death from above

You rock 'n' rollers  
You sudden victims of  
Death from above  
Oh, death from above

Yes love, I'm sinking  
I hunger where you are  
What's left but notice  
To notice just how far

I see the moon light  
Cover me under the spell  
I see the few souls  
Begging bury us now

I know the valleys  
Running up under my path  
I know the [?]  
Death from above  
Oh, here comes death from above

Oh lord, I'm sinking  
I just don't know how far  
It's death from above

Yes love, I'm sinking

I hunger where you are  
Death from above  
Death from above

Yes lord, I'm thinking of  
Death from above  
Yes lord, I'm thinking of  
Death from above
