

## Hummer

## The Smashing Pumpkins

Faith lies in  
The ways of sin  
I chased the charmed  
But I don't want them anymore

And in their eyes I was alive  
A fool's disguise  
Take me away from you

Shame my tongue  
Fat with promise all along  
But when I woke up from that sleep  
I was happier than I'd ever been

When you decide  
That your life is a prize  
Renew and rivive  
It's alright honey  
It's alright, yeah

Happiness will make you wonder  
Will I feel OK?  
It scares the disenchanted  
Far away

Yeah I want something new  
But what am I supposed to do about you  
Yeah I love you, it's true

Life's a bummer  
When you're a hummer  
Life's a drag

Ask yourself a question  
Anyone but me  
I ain't free

Ask yourself a question  
Anyone but me  
I ain't free

Do you feel  
Love is real?
