

Pennies

The Smashing Pumpkins

And I stumbled onto you
As you stumbled over me
And you say the fates were cruel
For throwing us together
I always loved you so
Especially when you'd go
All the world must know
All the world must know
That I loved you so

It's a pity we're apart
It's a shame you broke my heart
But I've got a new girlfriend
She looks a lot like you dear
No-one could ever do dear
All the world must know
That I loved you so
Especially when you'd go
Especially when you'd go
Especially when you'd go
Away and leave me here
Go away and leave me alone
All the world must know
