

## Pennies

The Smashing Pumpkins

And I stumbled onto you  
As you stumbled over me  
And you say the fates were cruel  
For throwing us together  
I always loved you so  
Especially when you'd go  
All the world must know  
All the world must know  
That I loved you so

It's a pity we're apart  
It's a shame you broke my heart  
But I've got a new girlfriend  
She looks a lot like you dear  
No-one could ever do dear  
All the world must know  
That I loved you so  
Especially when you'd go  
Especially when you'd go  
Especially when you'd go  
Away and leave me here  
Go away and leave me alone  
All the world must know
