Kiss and kill me sweetly Come and drive me home Drag the miles in me I am yours alone

Inside where it's warm Wrap myself in you Outside where I'm torn Fight myself in two In two Into you

Desire me so deeply Drain and kick me hard Whisper secrets for me Try to go too far

Inside where it's warm Wrap myself in you Outside where I'm torn Fight myself in two In two Into...

Please don't change Please don't change at all Bring your rain Bring your rain to fall

Inside where it's warm Wrap myself in you Outside where I'm torn Fight myself in two In two Into you

Come and kiss me sweetly
Ride the telephone

Yours alone
