The Smashing Pumpkins

Burn down the sun
I'm not everyone
High and dry
Nothing but a body in my mind

I'm here to stay
Not here, today
High and dry
Nothing but a body in my mind
I'm nothing but a body in my mind

I feel that something ain't right
No fear but reason that I can cite

Tear down the sun
Bring down the sun
I'm not everyone
I'm not everyone
I'm not everyone

Unholy sin
Unholy fate
High and dry
Nothing but a body in mind

I'm left to ash
Not here, but past
High and dry
Nothing but a body in mind
I'm nothing but a body in my mind

I feel that something ain't right
No fear but reason that I can cite

Tear down the sun
Bring down the sun
I'm not everyone
I'm not everyone
I'm not everyone
Burn down the sun

Speculation
Come on, get yourself together
Speculation
Become the owl at midnight
In situation
I am the seer, I am the seeker
In situation
Become the wound that binds you
Become the wound that binds you
Become the owl at midnight
Become the owl at midnight

I'm high and dry
I'm ash made time
I'm sun drilled bright
And nothing but a body in my mind

And nothing but a body in my mind

Tear down the sun
Bring down the sun
I'm not everyone
I'm not everyone
Burn down the sun
