

## Stumbleine

The Smashing Pumpkins

Boredoms in the bathroom shaking out the loose teeth  
Sally's in the stirrups claiming her destiny  
And nobody nowhere understands anything  
About me and all my dreams  
Lost at sea  
Jack it up judy set your heart alight  
Mayfair mistress of the satellites  
Misspent youth- faking up a rampage  
To hold off the real slaves  
Paid off and staid  
And what you never knew  
Can never get to you  
So fake it  
I'll be your stumbleine  
I'll be your super queen  
And make you  
Jukebox fuckup hanging round the drugstore  
No matter what you say he'll be back for more  
Mommy's in the manger with the little kids  
She's got her reasons, got my forgets  
Of tears and idle threats  
Misplaced  
And no matter what they do  
They can't get to you  
So fake it  
I'll be your stumbleine  
I'll be your super queen  
And make you me  
Come around ruby I could never sleep alone
