

# Transformer

## The Smashing Pumpkins

A livewire moves slow  
A transformer always knows  
The score is four  
Leaves you hanging on the floor  
For more and less and more of the blame  
And she's tired  
And she's sick of the same old shit  
It's just more of the same old same  
I know she wants more and more and more to witness  
To lay down and bear true  
A cherry onion firefly  
Tastes sweet and white  
As you are blue  
Knows just what she wants to do  
With you below the silver skies  
Don't eat her cuz she's undersized  
And she's tired  
And she's sick of the same old shit  
It's just more of the same old same  
I know she wants more and more and more to stomach  
In honor of her youth  
She's not sorry she's happy  
Sorry she's happy  
She's not sorry she's happy  
Sorry she's happy as a turtle  
She's a real live transformer
