Travels

The Smashing Pumpkins

```
See love, see time
See death, see life
See tears, see bright
See day from night
See pause, see tomb
See breath, see moon
See sun, see stars
See god, see ours
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
See yes, see shine
See seas, see mine
See shadow's wind
See ripple, see blind
See you, see me
See destiny
See knots untied
See knots that bind
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
To row out where the thunderstuff
Of storehoused sight takes you up
And whirlpool-like swirls you under me
Rhapsodies tell a riptide fight
And panoramas of the sunset life
Yet heaven's faithful servant
Is still your dream
See love, see time
See death, see life
See tears, see bright
See day from night
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
```

That's where I belong

That's where I belong
That's where I belong
But far from here or else I'm gone
That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone

That's where I belong
That's where I belong
That's where I belong
But far from here or else I'm gone
