

Waiting

The Smashing Pumpkins

Please drive slow
I've never been this way before
Violence reels in the underground

Yes, I am waiting
In silence throne
To fill the meetings
To strike me down
No more a reason
Than god above
Let your curses run
Yes, I am waiting
For your love
For your love

Radio waves of a dying sun
Radio speaks my soul alone
Forget my names, erase the page
And dinners draw the passengers
Yes, I am waiting
In silence throne
My blood of treason
My tears of home
No more a feeling
Than being cold
Of playing on
Yes, I am waiting
As I walk your street
Yes, I am waiting
As I ride your dreams
Yes, I am waiting
Inside your doubts
Inside your doubts
Just let me out
Just let me out
