

With Every Light

The Smashing Pumpkins

Taking over
We're taking over
Throw the weight up off you shoulders now
That we can show our love
It's almost over it's almost over
No more war and no more soldiers
To stand against his love
Away with all the troubles that you've made
Away with waiting for another day
Away
Look ma the sun is shining on me
Impatient, in love and aching to be
Could you believe in heaven
If heaven was all you had
We're taking over we're taking over
Throw away your four leafed clovers
And stand beside this love
Away with everything you've grown to hate
Away with anything that holds you safe
Away
And every light I've found
Is every light that's shining down on me
I'm never alone
Look ma the sun is shining on me
Taking my time to do as I please
Could you believe in heaven
If heaven was all you had
The sun is beaming, radiating
All the love we are creating
We are creating
And every light I've found
Is every light that's shining down on me
I'm never alone
