I can feel your heartbeat, baby, all the time
It echoes like a koto playing in my mind
I want you near me each and every day
With you, I know our love will always find a way

When I see you smiling, baby
You give me butterflies, you can be my samurai
So glad to be your lady
Could it be forever true, all I think about is you

Doki doki, follow me, it's enchanting like a dream
Forever and a night, baby you and me
Doki doki, we will be, when your heart beats next to me
Underneath the moon, love will set us free (whoa-oh-oh-oh)

When we walk together and you're by my side
I know that I am yours and, baby, you are mine
I get so excited about the things you say
Feeling like I am the luckiest girl today

When I see you smiling, baby
You give me butterflies, you can be my samurai
So glad to be your lady
Could it be forever true, all I think about is you

Doki doki, follow me, it's enchanting like a dream
Forever and a night, baby you and me
Doki doki, we will be, when your heart beats next to me
Underneath the moon, love will set us free (whoa-oh-oh-oh)
